

OUR CLINIC - STATEMENT OF COMMITMENT:

StL Diagnostic Imaging believes that our services are Integratable with clients who may have a disability, and by communicating with our clients openly, we can work together to achieve the common goal of personable, high quality service which provides an Equal Opportunity for all clients to access the services we provide.

STL Diagnostic Imaging provides equitable service to all clients, regardless of their accessibility limitations or disability.

CLINIC

- Provides a professional environment that promotes barrier-free access for all clients and their support systems, as laid out by the AODA and the Ontario Health and Safety guidelines.
- Provides service that allows those with a disability to partake of our services while maintaining their dignity and independence. We only step in to help when asked to do so and do not assume anything. Refer to our Policy and Procedures: Interactions and Communication with People who have a Disability.
